Electronically Recorded  
Chesapeake Operating, Inc.

For and in consideration of Ten Dollars and no/100 (\$10.00) and Other Valuable Consideration, the receipt and sufficiency of which are hereby acknowledged, **Chesapeake Exploration, L.L.C., an Oklahoma limited liability company, as successor in interest to Chesapeake Exploration Limited Partnership**, whose mailing address is P.O. Box 18496, Oklahoma City, Oklahoma 73154-0496, hereinafter referred to as "Assignor", does hereby grant, bargain, sell, convey, assign and deliver unto **Chesapeake Investments**, an Oklahoma limited partnership, whose mailing address is P.O. Box 18496, Oklahoma City, Oklahoma 73154-0496, hereinafter referred to as "Assignee", an undivided portion of Assignor's interest in and to the oil and gas leases described in Exhibit "A" attached hereto ("the Leases"), in an amount sufficient to vest Assignee with **two and one-half percent (2.50%)** in the **MARTIN SPROCKET 1H WELL** ("the Well"), located in the M. Arocha Survey, A-2 and the E. Sutherland Survey, A-1438, Tarrant County, Texas, and in the lands included and described in the Declaration of Pooled Unit recorded as Instrument No. D208201645 of the records of Tarrant County, Texas, containing 153.216 unit acres ("the Unit"), as such Unit is amended or modified from time to time, including all oil and gas produced therefrom and all downhole and surface equipment associated therewith.

**PROVIDED HOWEVER**, if Assignor's ownership in the Leases is not uniform as to all depths, zones or formations **and** the foregoing partial assignment would cause Assignor's remaining working interest in any *depths, zones or formations* covered by the Leases (determined after consideration of any carried or reversionary interest) to be less than twelve and one half percent (12.5%) on an eight-eighths basis, then the interest assigned hereunder to Assignee as to *such depths, zones or formations* only shall not be the full two and one half percent (2.5%) working interest in the Well and Unit as stated above, but instead shall be proportionately reduced to the same extent as Assignor's reduced interest as of the date of spud of the Well with respect to *such depths, zones or formations*.

The interests assigned hereunder shall derive proportionately from all working interest owned or claimed by Assignor in the Leases, or any other source of ownership in the Unit, contractual or otherwise, as of the effective date of this assignment, including any interests acquired via farmout, non-consent elections, force poolings, etc. To the extent any portion of Assignor's title or ownership interest is reduced after payout or after the assessment of non-consent penalties, or is limited to the wellbore of the Well, Assignee's title or ownership conveyed hereunder shall be proportionately reduced thereby in the same manner as Assignor's title; provided, however, a reduction of ownership on a wellbore only basis in the Well after payout or the assessment of non-consent penalties shall not reduce Assignee's interest in the Unit, or subsequent wells, it being the intent herein to convey an undivided 2.5% interest in the Unit.

Assignor delivers to Assignee the above-described interest at the same net revenue interest owned by Assignor, proportionately reduced to the interest assigned. The interest assigned shall bear a proportionate share of all delay rentals, royalties and other obligations burdening the Leases and shall bear a proportionate share of all costs associated with the drilling, completing, operating and/or plugging and abandonment of any well hereafter drilled on the Leases or lands pooled or unitized therewith.

This assignment is made subject to all the terms and the express and implied covenants and conditions of the Leases and any intervening assignments and agreements affecting same, which terms, covenants and conditions Assignee hereby assumes and agrees to perform with respect to the interest assigned. The terms, covenants and conditions of said

leases, assignments and agreements shall be binding upon Assignee, not only in favor of the lessor(s) and any prior assignors and their respective successors and assigns, but also in favor of the Assignor herein and its successors and assigns.

This assignment is made and accepted without any representation or warranty of title of any kind, either express or implied. In the event that title to all or any portion of the interest assigned should fail, then and in such event, the percentages of the interest assigned herein shall be reduced in the proportion to which the failed portion of the interest bears to the entire interest.

In witness whereof, this instrument is dated the 3rd day of December, 2009, but effective as of the date of spud, April 9, 2008, of the Martin Sprocket 1H Well.
